

Hi, I'm Laura Thomas, the proud owner of Borrow My Mechanic.

Starting this business has been a dream of mine because I believe people deserve honest, dependable automotive service they can trust. I know how stressful it can be when your vehicle breaks down or you don't have the time or ability to get it to a repair shop. That's why I created Borrow My Mechanic—to bring reliable roadside assistance and mobile vehicle services directly to you.

My goal is to build a company that's known for integrity, fairness, and outstanding customer service. Every customer is treated with respect, and we take the time to explain our services so you can make informed decisions about your vehicle.

After months of explanation and thoughtful consideration I convinced my mechanic to help out others like he has been helping me. Well, it all paid off and now I am building something very special. We're proud to be a licensed Nevada business serving Northern Nevada.

As we continue to grow, we're committed to training skilled mechanics who share the same values of honesty, professionalism, and quality workmanship. Our mission is not just to fix vehicles—it's to help people get safely back on the road with confidence.

Thank you for considering Borrow My Mechanic. We look forward to earning your trust and becoming your first call whenever you need a dependable mobile automotive service.

Laura
